Members Present

Douglas Gabauer, Robert Midkiff, Griffin Dunn, Colin Madigan, Phil Stahlfeld

15:00 to 15:05

Discuss progress on background document

15:05 to 15:30

Review of technical specifications
Feedback clients:

- Request for saveable settings in capture device

- If possible, define active vs. waiting time for setup

- Include timestamps with images

- Allow for selection of different key images

- No wires

- 24 hour time limit for system to finish processing

15:30 to 15:35

Discussion of version 2 vs. version 1 specification. Key requirements as dictated by clients: capture 100% of information, portable, and image format that can be edited.

Discussion of what will be required for editing. Color filters, zoom, rotate, crop.
