- Discussed user interface and how clients will use second phone app to upload pictures.

- Discussed success with key image capturing

- Discussed future of image processing and image cleaning.
    Client was pleased with our image cleaning progress, but wondered about colored markers

3:15 to 3:20 Feedback

- Asked for feedback and suggestions for current work.
    Dr. Gabauer was pleased with our progress and told us to keep up the good work

Members Present Meeting 2

Robert Midkiff, Griffin Dunn, Colin Madigan, Phil Stahlfeld

8:00 to 8:15 Panel 5 Review

Reviewed Material Covered in Panel 5

- Showed progress with process automation

- Discussed user interface and how clients will use second phone app to upload pictures.

- Discussed success with key image capturing

- Discussed future of image processing and key frame calculation

8:15 to 8:25 Feedback

- Asked for feedback and suggestions for current work.
    Dr Midkiff was very impressed by our image processing/cleaning so far

    He also congratulated us on the ease of use factor and liked the image cleaning progress we were able to demonstrate.

    Client suggested that he might consider actually using product in classrooms to augment current systems if we clean it up enough.

    Discussed the possibility of patenting our original work.
